DESCRIPTION

Tapecoat Rugged Wrap is a 30 mil UV resistant mesh weave fiberglass wrap that offers additional mechanical protection for protective coatings. This moisture activated non-shielding overwrap will give coatings and structures increased protection from exposure to abrasion, soil stress, frost heave and mechanical damage above and below grade.

Rugged Wrap is durable, aesthetically pleasing and available in a wide variety of colors including a full range of Safety Code Colors. These colors include Silver, White, Yellow and Black. Additional colors available upon request.

White Rugged Wrap will discolor when exposed to UV. Other colors may darken slightly after UV exposure.

SUBSTRATE COMPATIBILITY

Any protective coating. Some coatings may cause discoloration of the coating.

RECOMMENDED USE

Ideal for protecting structures such as bridge crossings, riser pipes, flanges, valves, and all types of piping and metal structures.

SURFACE PREPARATION

None Required. Rugged Wrap is a mechanical protective overwrap, not a corrosion preventative coating.
